PEACE NOT PROBABLE

Unless It Is Secured With a Guarantee of Independence to Coers.

THE CRY FOR WAR GROWS LOUDER.

Sympathizers With South African Patriots Are Justifying an Indefinite Continuance of Guerilla Warfare.

The Hague, April 8.—There is little faith among the Boer sympathizers here that peace is imminent in South Africa. Hearts are hardened in consequence of the conferences held here and at Utrecht and the Boer envoys and refugees are asserting in a louder cry than ever that the war will last four years longer and that there can be no peace without independence. The credulity of the burghers in South Africa is matched by the assumption of their agents here that their deliverance is coming from England's foreign complications when there is not a cloud in the sky. When the three Boer commissioners were sent to America it was assumed that a good case would be made out for an investigation of the military conduct of the war and the shipment of supplies of horses and mules from the United States would be prohibited. These illusions were dispelled when the delegates returned, but a new fiction has been supplied.

The Boer advocates are asserting that England is fatally embarrassed by her alliance with Japan and certainly will be drawn into a war of tremendous magnitude in the far east. The Boer sympathizers are consequently justifying an indefinite continuance of the guerilla warfare and forecasting the ultimate triumph of the cause of independence, when British troops cannot be spared from the larger theater of European operations.

The Dutch were once the most astute neutrals in the world. They are now the most aggressive partisans.

When the radical government was in power the ministers confessed that the future of Holland might be imperilled by the bitter hostility displayed against England. Some of them were frightened by the fact that Utrecht had become a base of operations against England and that Mr. Kruger had brought to Holland what gold remained in the Transvaal treasury and was using it for purpose of maintaining hostile operations and promoting foreign intervention. They were charged with a lack of sympathy for the Boers when they asserted that the presence of Mr. Kruger kept Holland in a state of excitement and it would be a good thing if he were to leave the country.

To Prevent Shipment of Arms.

San Francisco, April 8.—The custom house authorities have been notified to be on the alert to discover the shipment of arms from this country to the insurgents in China. Collector Stratton has received a letter from O. A. Spalding, acting secretary of the treasury, stating that in the protocol signed on Sept. 7, 1901, the importation of arms and munitions of war is prohibited. The letter states: "It is reported that insurrectionary movements are now flagrant in the southern provinces of China and that the insurgents are receiving supplies of arms and warlike materials from abroad."

Market at Lathrop.

Jefferson City, Mo., April 8.—Governor Dockery's attention was called to the alleged British war supply camp at Lathrop, Mo. The governor said he knows nothing about the operations of the British there, other than a market has been operated at Lathrop for the past 10 years by private individuals. He says the United States government as well as the British government is supplied with horses and mules from that point.

MacArthur's Version.

Washington, April 8.—General MacArthur continued his testimony concerning conditions in the Philippine archipelago before the senate committee on the Philippines. His discussion at the beginning of the session was devoted to a review of the conditions which led up to the present state of minds of the Philippines people. He said that long before the advent of the Americans the germs of democracy had been planted there.

Will Fight to End.

Augusta, Ga., April 8.—The situation in the strike of the cotton mill operatives was unchanged, but at 6:30 the lockout in the Augusta district went into effect. The manufacturers' association held a meeting and decided to fight to the end. This means that there will not be a spindle turned in Augusta or the House Creek valley.

NINE PA SENGERS

Seriously Injured in a Streetcar Collision at Joliet.

Joliet, Ill., April 8.—Scores of lives were endangered in a collision between a street car and a Santa Fe passenger train. Henry Muft, motorman, was badly hurt and may die. The car had about 75 workmen aboard. The air brakes failed to work and the car crashed into the passenger train slowly pulling into the depot at Cass street. The force of the collision knocked a passenger coach from the track and demolished the street car. Nine passengers were seriously hurt.

Railway Merger Act.

Des Moines, Ia., April 8.—The bill known as the Hubbard railway merger act, companion of the Molsberry bill, passed the house in practically the same form as it passed the senate. The impression prevails that the governor will veto it, as it is generally claimed to be intended as an aid to the Hill-Harriman railroad merger, a feature which induced the governor's veto of the Molsberry bill. The Hubbard bill authorizes any line incorporated under Iowa laws, regardless of location, to exercise the same privileges as lines operating in Iowa. These privileges are enumerated in the substitute Molsberry bill.

Results in Ohio.

Columbus, O., April 8.—The vote for offices at the municipal elections in Ohio was light. In Columbus the Republicans elected Fraas for police clerk and elected 11 of the 19 councilmen. At Cleveland, where Mayor Johnson has been conducting a campaign for a 3-cent street railroad fare, the Democrats secured a majority of council. At Bellefontaine the Democrats elected mayor. At Cincinnati the Republicans elected Judge Ferris to the superior bench. The Democrats swept Dayton and elected a mayor at Findlay. Toledo went Republican. Mixed tickets were elected in many places.

Opposed By Cullom.

Washington, April 8.—Mr. Cullom said that personally he was in favor of the absolute exclusion of Chinese laborers, but he believed that existing laws were ample to accomplish the result. He was opposed to the pending bill because some of its provisions, in his judgment, were in contravention of our treaty obligations. He conceded the right of congress to abrogate treaties by legislation, but urged that such action should be taken only in exceptional cases. It was unnecessary in the present situation to pass such a law as that proposed.

Wife Murderer Hanged.

Camden, N. J., April 8.—Samuel Van Stavern was hanged here for the murder of his wife. The crime was committed on the night of Nov. 29 last, and was the result of jealousy. Van Stavern and his wife had been married 18 years, separated frequently and were not living together at the time of the tragedy. Van Stavern met his wife on the street and fired four shots at her from a revolver, all of the bullets taking effect. She died instantly. During his trial he professed ignorance of the occurrence.

A Veteran Suicides.

New York, April 8.—An old man, neatly clothed and wearing a G. A. R. button, committed suicide in a doorway on University Place, by shooting. From papers found it was learned that he was Oscar de Camp Taylor, discharged from the Union army at Murfreesboro, Tenn., in 1863. He was mustered out as adjutant of the One Hundred and Tenth, Illinois volunteers. A personal letter from President Hayes praising his valiant services was found in his pocket. Poverty evidently caused the suicide.

Prices May Be Advanced.

New York, April 8.—A meeting of window glass jobbers will be held in this city at which the American Window Glass company will be represented. It is expected window glass prices will be advanced for the purpose of adjusting the differences between the American company and the jobbers, which have existed for a long time.

Freight Cars Derailed.

Des Moines, Ia., April 8.—Advices from Reinbeck state that a Great Western passenger train struck a Northwestern freight train at the union northeast of Reinbeck, derailling two freight cars. No casualties are reported.

Horseman Contracts Smallpox.

San Francisco, April 8.—Green B. Morris, the well-known horseman, has been stricken with smallpox and is now an inmate of the city pest house here. His case is said to be of a mild type.

Washington, April 8.—Mr. Payne said that in time United States exports to Cuba would amount to \$200,000,000. While he did not want Cuba annexed, he believed that in time she would be a part of the United States.

RESOLUTION OFFERED.

Ohio Will Be Prepared to Accept Provisions of the Rhodes Will.

TWO SCHOLARSHIPS AT OXFORD.

Ross County Statesman Desires Authority Conferred Upon Historical Society for Celebration of Ohio's Admission Into the Union.

Columbus, O., April 8.—The house of representatives met on schedule time after the members had spent a day at home attending to the municipal elections. Work will be disposed with as much rapidity as possibility and a "hot finish" is expected, to enable the session to adjourn on April 21. Representative McNamee introduced a resolution as soon as the reading of the journal was completed. The resolution gives official authority to the governor to accept the scholarship at Oxford university conferred upon two Ohio boys, as soon as he will have been formally informed of the provisions of the will of the late Cicil Rhodes. One hundred dollars is to be appropriated for the purpose of defraying the expenses of an examination to be held in the hall of the house of representatives. The examination is to be open to every boy in the state without regard to his social or financial condition and the commission is especially charged to see that the provisions of the will are fully complied with.

Another resolution was offered by Mr. Foster of Ross county. This resolution is to confer authority upon the State Archaeological and Historical society to proceed with the contemplated celebration of the admission of Ohio to the Union. The resolution provides that a commission, honorary, be appointed by the governor to represent the state. The commission is to consist of seven members.

A bill of interest to wheelmen was introduced. The bill provides for issuing licenses to wheelmen without charge, except where there is a path maintained by societies. Permission is also granted to widen the bicycle path along public highways.

A bill by Mr. Arthur of Union county provides that county auditors are to be given postage for forwarding reports to the office of the auditor of state. The bill also provides that the expense of preparing these reports is to be borne by the state and not by the counties.

Representative Willis of Hardin county introduced a bill to give probate courts concurrent jurisdiction with common pleas courts in matters of the partition of estates.

Representative Middleswart introduced a bill to allow justices of the peace 25 cents each for issuing the first subpoenas in cases and five cents for each additional ones.

Action of Bond Companies.

New York, April 8.—Nine companies which make a business of going on the bonds of liquor dealers have notified their customers of an advance in the rates. The bonds they sign are guarantees to the state that the liquor laws will not be violated. When a saloonkeeper is twice convicted of excise violation, his license is revoked and his bond forfeited. Many of the liquor sellers arrested Sunday already have been convicted once and if proved guilty again the bonding companies will be compelled to stand the loss.

A Protest Filed.

Washington, April 8.—At the opening of the session the president pro tem, Mr. Frye, laid before the senate a telegram signed by Claus Spreckles and about 20 other business men of San Francisco protesting against the passage of the Chinese exclusion bill in its present form. The signers of the telegram declared that the exclusion of legitimate Chinese merchants, according to the provision of the measure, would be an act of gross injustice.

Destroyed by Fire.

Youngstown, O., April 8.—Fire destroyed the training and stock farm barns of the Charles E. Bates Horse company and the residence of Manager Norman N. Rogers, near Hubbard. There was little fire protection and within an hour the fine buildings and equipment, which was acknowledged to be the finest of the kind in eastern Ohio, were consumed. The loss is estimated at \$25,000.

Joplin, Mo., April 8.—Eugene Fitzwaters, aged 26, shot and fatally wounded James Young, aged 35, in this city, discharging a load of shot into Young's right breast at a distance of 10 feet. The men had taken up a quarrel started by two boys over a game of tops. Young was a baker and has a wife and child. Fitzwater surrendered to the police.

OUTLOOK FOR STRIKE.

West Virginia Coal Miners May Be Ordered Out.

Indianapolis, April 8.—An order for a great strike in the West Virginia bituminous coal fields may be issued within the next two or three days by the national executive board of the United Mine Workers of America, now in session here. It has been admitted for a month at headquarters here that a strike was probable in West Virginia, as the operators had repeatedly refused all appeals for a joint conference. The Mine Workers have not abandoned hope of a settlement, but the officials indicate they are well prepared now for making a vigorous fight. The situation in the anthracite field has not yet been taken up.

Whitelaw Reid Declines.

Washington, April 8.—Whitelaw Reid, head of the special embassy to represent the United States at the coronation of King Edward VII, has declined the tender of the British government to become its guest during the ceremonies. The British government extends a similar invitation to every one of the special ambassadors, undertaking to provide them quarters and entertainment. The difficulty lies in the fact that the invitation is limited to a six day stay in London, while Mr. Reid finds it desirable to be there at least a week preceding and a week following the ceremonies, so he has taken steps to lease a suitable house at his own expense.

Violation of Sherman Law.

Cincinnati, April 8.—The federal circuit court of appeals affirmed the United States district court which had issued an injunction against the trade agreement entered into by the Chesapeake and Ohio company and 17 coal operators in the Kanawha district of West Virginia whereby the fuel company agreed to handle the output of these 17 operators and not handle any other coal from the Kanawha district. Both courts held that this agreement was in violation of the Sherman anti-trust law and constituted a combination in restraint of trade, and therefore it was permanently enjoined.

Taft's Plans.

Cincinnati, April 8.—Although Governor William H. Taft has been released from the hospital and has been walking out and attending to correspondence at the house of his brother, Mr. Charles P. Taft, he is not yet entirely recovered, and his surgeon has advised him to wait at least until April 15th before beginning the duties that precede his return to the Philippines. He expects now to be able to go to St. Louis on the 15th or 16th of April to consult with the officers of the St. Louis exposition concerning an exhibit from the Philippine islands.

Rhodes' Funeral Train.

Buluwayo, Matabeleland, April 8.—The funeral train conveying the body of Cecil Rhodes, which left Cape Town April 3, arrived here. The town was draped in mourning and practically the entire population assembled at the railroad station and accompanied the coffin to the drill hall, where it is now lying in state. Masses of wreaths and other floral tributes are banked about the bier. The coffin will be taken to the Rhodes farm in the Matopopo district, whence it will be conveyed April 10 to the hill called "The View of the World."

Known at Paterson.

New York, April 8.—Enrico Malesota, who has just been sentenced to five months' imprisonment by an Italian court of justice for publishing an article in an anarchist newspaper, is well known in the Italian colony at Paterson, N. J. He came to America in June, 1899, and for a time published a paper. He was intimate with Brisci, the assassin of King Humbert, and was said to have written from London before the assassin left Paterson on his fatal mission.

Mrs. Thompson's Gift.

Williamstown, Mass., April 8.—A new chapel to be made one of the finest buildings of its kind in the country is to be presented to Williams college by Mrs. F. F. Thompson, as a memorial to her husband, who was a trustee of the institution and whose gifts to the college in money and buildings during his lifetime aggregated more than \$500,000. The gifts were announced by President-elect Hopkins of Williams.

Arrested For Murder.

Huntington, Ind., April 8.—Frederick Mackenzie of Warren, this county, is under arrest in this city charged with murdering his father-in-law, William Lines, also of Warren. Lines died March 20, 1902, and it now develops that his death was due to blows inflicted by Mackenzie. Affidavits for the arrest were made by sons of the deceased. The accused admits the assault, but pleads self-defense.

FETE AT CHARLESTON.

President Roosevelt and Party Participate in Gala Events.

PLEASANT TRIP ABOUT THE HARBOR.

All of the Arrangements Said to Be Excellent and Nothing Marred Day's Pleasure—Sword Presentation.

Charleston, S. C., April 8.—The president's train reached Charleston at 9:30 a. m., on time.

The party did not come into the city, but left the train five miles out, where trolley cars were waiting to convey them to the naval station to take the revenue cutter for a tour of the harbor. The president's immediate party went directly to the naval station, where they were joined in a few moments by members of the reception committee and invited guests from the city.

A guard of 30 militiamen was stationed about the approaches to the train and stood at present arms as the president landed. At the naval station 50 men of the militia were posted making a picket line about the reservation and none was allowed within the lines except such as had special passes. The president and his party were shown about the station and then were conducted to the pier, where the revenue cutter Algonquin was in waiting. As the president set foot on the deck the flag of the commander-in-chief of the army and navy was raised and the jacies were paraded while a salute of 21 guns was fired.

In the stream the cutters Forward and Hamilton were lying and further down towards the city the cruiser Cincinnati and the training ships Topeka and Lancaster. After the committee and guests had gone aboard the Algonquin started on a tour of the harbor. Passing down Cooper river a fine view of the city and the opening of the bay was presented. The weather was perfect. There was not a cloud in the sky and a gentle breeze blew from the ocean with just a bracing touch in it, not chilly enough to require overcoats.

Passing into the bay, the Algonquin came abreast of the cruiser Cincinnati, whose decks were manned with all her crew, as well as the Topeka and Lancaster. As the president's vessel passed each ship fired a salute of 21 guns. Off the fortifications of Sullivan's island, the Algonquin was greeted with the same welcome and she passed to the ocean with gay streamers amid a chorus of guns.

Just a little run to the sea and the Algonquin turned about and re-entered the harbors passing around historic Fort Sumpter. While steaming up the bay luncheon was served in the cabin of the cutter. A short run was made up the Ashley river, giving a view of the city's western water front and then the ship was headed back for the landing where a troop of the Charleston Light dragoons was in waiting to escort the president to his headquarters at the St. John hotel. All the arrangements were excellent and there was not a break in the program. The president seemed in high spirits and entered with keen zest into the features of the occasion.

The evening banquet given by the city in honor of the president was held at the Charleston hotel. While this was in progress, Mrs. Roosevelt received at the St. John. Five hundred invitations were issued to this function. No men were present.

At 1 o'clock the next day the parade will move to the exposition grounds where the formal ceremonies will be held and the president will present a sword to Major Micah Jenkins. Then the president's party will go to Summerville and will spend Thursday there inspecting the tea gardens. A great crowd of people is in the city and much enthusiasm was shown at the presence of the president. Governor McSweeney is here and Governor Aycock of North Carolina is expected.

Heavy Vote in Kansas City.

Kansas City, April 8.—Bright weather brought out a heavy early vote in Kansas City and the indications were that almost total registered vote would be polled. Considerable interest is being shown, but there is no excitement. Mayor James L. Reed (Dem.) is up for re-election, and J. J. Green heads the Republican ticket. The Socialists and Prohibitionists also have full tickets in the field.

Heavy Fall of Snow.

Pittsburg, April 8.—Snow has been falling steadily 24 hours and there were over seven inches on the level. It is the heaviest April snow fall in 11 years and trolley, telegraph and telephone service has been much impeded. The indications are for a continuance of the snow with rain to follow.

The large furniture establishments in Maysville are stocked with all sorts of beautiful articles in their lines at prices astonishingly low. Come to Maysville for supplies.

In 1882 Henry V. Lucas, of Chicago, fell heir to \$2,000,000. Monday he was adjudged a bankrupt, \$40,000 worse off than nothing. Lucas has probably been tackling some of the "bears" in the Chicago grain pit.

The Frankfort Argus, a violent partisan organ, has gone the way that all violent partisan organs ought to go—it has been compelled to quit business.—Public Ledger.

Well, speak gently of the dead. But, speaking of "violent partisan organs," the Ledger must be an exception to the rule.

The Ashland Independent says it now seems to be a race between the C. and O. and the C. C. C. railroad people to see which will reach the rich coal and timber fields of Eastern Kentucky first. This means much to the State. That region is one of the richest in the country, as a few years more will demonstrate.

THE BAD BOY

Who Gives His Teacher All the Worry Imaginable Usually Graduates Into a Tramp or "Bum."

[J. S. Trigg in Hunterdon Democrat.]

This item is for the fifteen-year-old boy who thinks it is a smart thing to act up so mean at school that he wears out the life of his teacher and destroys the good work which the school was intended to accomplish. This sort of heathen are found in country as well as city schools. They are too big for a little woman to thrash and seem to have no moral sense which may be appealed to.

Now, boys, you are the architects of your own fortunes. You can improve the educational advantages given you and become useful and worthy citizens or you can raise Cain, as you do in school, graduate from there into a brake beam tramp and die a dirty bum. You can make your choice. The sure way to get into plenty of trouble when grown to manhood is to make lots of trouble in the public schools. You ought to have the meanness well licked out of you, but the teacher can't do it, your father won't, and the school board had rather fire you than lick you. Fun and plenty of it is a birthright of the American boy, but your type of meanness is not fun; it is the outcropping of the heathen in you, and you belong with the Moros or Tagals of the Philippines rather than with the people of civilized North America. Turn over a new leaf.

PERSONAL.

—Mrs. Charity Sharp, of Carlisle, is visiting her son, Mr. H. C. Sharp.

—Mrs. Nellie Wood Boggs left Tuesday for her home at Waynesville, N. C.

—Rev. Henry Forman and wife arrived in San Francisco this week from Calcutta, India.

—Mrs. H. P. Lewis, of Lexington, spent a few hours in Maysville Tuesday, on business.

—Mrs. Andrew Curtis has been visiting her sister, Mrs. S. J. Brent, of Flemingsburg, this week.

—Mr. and Mrs. N. S. Dudley and Mrs. Morgan Cox, of Flemingsburg, visited Mr. and Mrs. D. W. January Tuesday.

—Mrs. Nora Caldwell, of Millersburg, and Miss Harris, of Germantown, visited their sister, Mrs. Charles H. Cooper, this week.

—Misses Lizzie S. Andrews and Belle Mitchell Dudley, of Flemingsburg, returned home Tuesday from a visit in Maysville.

—Mr. Henry McClanahan, engineer of the steamer City of Louisville, and his assistant, Mr. Harry Crawford, are here visiting relatives. Their boat is laid up for repairs to her hull.

PITHY POINTS.

Taylor, of Indiana, would doubtless give it as his opinion that no one is guilty as charged by that Danish envoy.

Some of those Washington fellows would doubtless like to delay that investigation into the sale of the Danish West Indies until Christmas.

Some of the same gentlemen who are inveighing so lustily against that Christmas tale worked themselves into a frenzy on account of the verdict of the Cuban court against that gang of Indiana postoffice looters at Havana.

Fine Dress Goods

In this specialty our house maintains its supremacy more positively than ever. Not content with equaling the notable achievements of past seasons, but ever striving to advance, we offer in our presentation for 1902 the most sumptuous array of high class fabrics and trimmings. D. HUNT & SON

THAT CONFEDERATE HOME.

Captain James B. Clay, One of the Veterans, is Decidedly Opposed to Such an Institution.

[Enquirer.]

LEXINGTON, Ky., April 7th.—"I am opposed to any poorhouse idea for Confederates. I am also opposed to the injection of politics into such a home. I will fight the present idea for a Kentucky Home for Confederates."

So spoke Captain James B. Clay to the Enquirer. Capt. Clay is known all over the State as a gallant Confederate soldier, as a breeder of great race horses and as a prominent Brown Democrat in the Goebel-Taylor campaign. He is a descendant of Henry Clay. Continuing he said:

"This niggardly appropriation of a few thousand dollars by the Legislature and its plan of government is repulsive to me. The plan is nothing but Bennett H. Young's scheme to become Governor. He is the mainspring, and works things to suit his own political fortunes. Then, again, the plan is too much on the order of a poorhouse, and no matter how poor I don't believe any self-respecting man who wore the gray will fill the roll of pauper. I think the Confederate Veterans' Association of Kentucky should disband in preference to lending itself to any such scheme. I am going to fight the scheme tooth and toe nail."

That there is more or less discord among the "boys in gray" over the Home project is generally conceded.

Offer Extraordinary.

While our stock of solid silver lasts, we can save you 35 per cent. on your purchases in that line. Watches, diamonds and jewelry at figures that no competitor can possibly offer. CLOONEY & PERRINE.

A. K. Marshall has sold to R. J. Gaither about two thirds of an acre in Lewisburg precinct for \$300 cash.

Bridget Bracken has conveyed to Thornton and Bettie Breckinridge a house and lot in Washington for \$400.

C. D. Newell has conveyed to Gilbert J. and Amanda F. Lewis, a house and lot on north side of Fleming pike, for \$300.

James Flynt, a member of the Georgia legislature, shot and killed Hudson after Flynt had been fatally wounded.

Travis C. Garrett, of Brown County, O., and Miss Grace Kelly, aged sixteen, of this county, will be married to-day by Elder T. P. Degman, of Springdale.

Mrs. Mary A. Hauke, Conrad Hauke, Mrs. Amelia Bendel, and Mrs. Matilda Schreiber have sold their interest in a house and lot on north side of West Second street to Joseph, Lillie, Louisa, Julia and Alton L. Schatzmann for \$750 cash.

The Central Oil, Gas and Mining Company, drilling for oil on Sheriff Baughman's farm, near Stanford, struck a good flow Tuesday at 600 feet. This company has had some of its stock on the market here, but investors have not taken advantage of the offer.

Mr. Abram M. Taylor, of East Windsor, Conn., and Mrs. Tabitha E. Williams, of this city, were married Tuesday. It was the third marriage of both bride and groom. Mr. Taylor is an attorney, and is sixty-one years of age, while his bride is a few years younger.

Notice to Contractors.

Plans and specifications for the new I. O. O. F. building at Flemingsburg, Ky., can be seen by calling at the office of A. D. Cole. Bids will be opened April 25th, 1902.

FORTUNES IN INVENTIONS.

Enormous Incomes Enjoyed By Some Successful Patentees.

[Scientific American.]

Some of the largest fortunes appear to have been derived from the invention of trivialities and novelties, such as the once-popular toy known as "Dancing Jimcrow," which for several years is said to have yielded its patentee an annual income of upward of \$75,000. The sale of another toy—"John Gilpin"—enriched its lucky inventor to the extent of \$100,000 a year as long as it continued to enjoy the unexpected popularity that greeted it when first placed upon the market. Mr. Plimpton, the inventor of the roller skate, made \$1,000,000 out of his idea, and the gentleman who first thought of placing a rubber tip at the end of lead pencils made quite \$100,000 a year by means of his simple improvement.

When Harvey Kennedy introduced the shoe lace he made \$2,500,000, and the ordinary umbrella benefited six people by as much as \$10,000,000. The Howard patent for boiling sugar in vacuo proved a lucrative investment for the capitalists who were able to remunerate the inventor on a colossal scale. It is estimated that his income averaged between \$200,000 and \$250,000 per annum.

Sir Josiah Mason, the inventor of the improved steel pen, made an enormous fortune, and on his death English charities benefited by many millions of dollars. The patentee of the pen for shading in different colors derived a yearly income of about \$200,000 from this ingenious contrivance. It is stated that the wooden ball with an elastic attached yielded over \$50,000 a year. Many readers will remember a legal action which took place some years ago, when in the course of the evidence it transpired that the inventor of the metal plates used for protecting the soles and heels of shoes from wear sold 12,000,000 plates in 1879, and in 1887 the number reached a total of 143,000,000, which realized profits of \$1,150,000 for the year.

The lady who invented the modern baby carriage enriched herself to the extent of \$50,000, and a young lady living at Port Elizabeth, South Africa, devised the simple toilet requisite known as the "Mary Anderson" curling iron, from which she derives royalties amounting to \$500 a year. It was the wife of a clergyman who designed an improvement for the corset and made a fortune out of it. The gimlet-pointed screw, the idea of a little girl, brought many millions of dollars to the clever inventor. Miss Knight, a young lady of excellent talents, was gifted with wonderful mechanical powers, as will be seen by the complicated mechanism of her machine for making paper bags. We are told she refused \$50,000 for it shortly after taking out the patent.

Mrs. Ellen Malone.

After an illness of more than a year Mrs. Ellen Malone died at her late home at Clark's Station near Lewisburg Wednesday evening, April 2nd. Mrs. Malone was born in Kerry County, Ireland, about seventy years ago and came to this country about fifty years ago. She leaves one son and two daughters, Thomas and Miss Josie Malone, of Clark's Station, and Mrs. Mary Welch, of Lewisburg. She longed to meet the loved ones that had gone before her and died consoled by the last rites of her religion.

The funeral took place Friday morning at St. Patrick's Church at 9 o'clock, Rev. P. M. Jones officiating, after which the remains were laid to rest in Washington Cemetery.

ARE YOU HARD TO PLEASE?

That is, are you more than ordinarily particular about the fit of your clothes, the general style and trimmings? If you are, you are just the man to whom we want to show our

New Spring Suits and Overcoats.

Individuality in dress is not secured unless the clothing itself possesses an individuality that distinguishes from the ordinary kind. Ours possesses this merit to the highest degree.

Our Children and Boys' Suits department is stronger represented than it ever was before.

Our HAT and SHOE departments are the leading features in these two lines in Maysville.

FORTUNES IN OIL!

Kentucky just now is attracting prospectors from all over the land. The wells already sunk prove it a very rich oil producer. MONEY INVESTED NOW MAY DOUBLE OR QUADRUPLE IN LESS THAN A MONTH.

Our holdings consist of about 5,000 acres in Wayne County, near the great Sunnybrook field, about 6,000 acres in Lincoln County, and 600 acres in Licking Valley in Bath County, close up to Ragland. Our first two wells near Ragland are producers. We have started to drill in all three counties, and expect to strike oil in every well. We are still acquiring valuable lands in addition to those already secured, and lying in close proximity to the greatest developments in the State.

A limited amount of the treasury stock will be sold, at \$5 per share, par value of shares \$10 each. This stock will, we confidently believe, be selling for par in thirty days.

THE TOP OF THE LADDER

A most desirable place for which many are striving. A man in business would be over modest if he didn't blow his own trumpet. But it would be the height of folly for him to claim for his goods, merits they didn't possess. We are neither vain or foolish in asserting that our spring line of goods is undoubtedly the finest collection of merchandise ever gathered under one roof in Maysville. The compliments of our customers and the constant increase in our sales are the best of evidence. And yet we sell cheaply. Try us.

ALL THE RAGE—Oxford Cloth for Gibson waist, regular price 25c., our special price 15c. Thirty-four inches wide.

A BROAD ASSERTION—Anything and everything in Men's Neckwear that's stylish for 25c.

A GENERAL VERDICT—That our Lace and Embroidery counter is the best equipped counter of its kind in town. Big assortment with low prices made it go.

STILL GROWING more popular every day. Our 25c. Hose, a new line of drop stitch, just added, Parisian effects. See them.

WRAPPERS—Our spring and summer line just arrived. Good Wash Fabrics. To save work and money is to buy one. Prices 75c. and up.

MR. B. A. WALLINGFORD, JR.

Former Maysvillian to Wed Miss Nannie Longworth. One of the Queen City's Wealthiest Daughters.

[Enquirer.]

An engagement which, though it has not been officially announced, is well known in society, is that of Miss Nannie Longworth to Mr. B. A. Wallingford, one of the most popular young men in local social circles. Miss Longworth is one of the wealthiest daughters of the Queen City, and so widely and popularly known in society that little wonder those who have already heard the news have been extending the heartiest congratulations to the fortunate groom-to-be.

The news of the engagement was first made public, it is said, Sunday afternoon at the Longworth home, where Hon. and Mrs. Bellamy Storer, just returned from Spain, received the visits of their intimate friends during the afternoon. No date has been set for the wedding, which will likely be deferred until early next winter.

Water Supply For
Summer!

To those who have good Cisterns or Wells we recommend and offer the

I-X-L Patent Galvanized Steel Chain Pump Curb and Galvanized Steel Tubing

It does not make the water taste as wood tubing does.
It will not rust, being made of the very best Galvanized Steel.
It will not rot or accumulate filth, and leaves the water clear and pure.
It is anti-freezing, as a small hole in the reservoir allows the water to run out.
It only weighs one-half pound to the foot, while wood-soaked tubing weighs six.

The English "Society for the Prevention of Consumption" presided over by the Prince of Wales, was recently addressed by Sir William Broadbent, who stated that it was definitely known that every case of consumption began with a germ communicated from some other case. There is no such thing as inherited consumption. There may be local weakness which tends to consumption, but the germ has absolutely to be planted in that weak spot before consumption can ensue. This ought to comfort thousands of people who have "weak chests" or "weak lungs." They are not foredoomed victims of this dread disease. All that is needed to bid absolute defiance to this deadly scourge is to be able to strengthen the weak lungs, and build up a strong body. The answer to this need is found in Dr. Pierce's Golden Medical Discovery. It so purifies the blood and increases the blood supply, that disease is thrown off, and the weak organs are nourished into perfect health, which defies germs of every kind. People, given up by doctors, emaciated, bleeding in the lungs, with obstinate, lingering coughs, are being cured every day by the use of "Golden Medical Discovery." It is a strictly temperance medicine containing no alcohol, whisky or other intoxicant.
